Forecast for Thursday 10 Sep 2020

Weather: Clear spells and mostly light winds through the early hours leading to the possibility of a few shallow fog patches in some valleys by dawn. These soon clearing to leave a generally dry day with bright or sunny periods and variable amounts of cloud. It will feel pleasantly warm in the sunshine and relatively light winds.

Chance of cloud free mountain/hill tops above 600m: 80% at first, with patchy cloud around 600-700m in north-western parts, but becoming greater than 95%, the cloud tending to become more fragmented and rising above the summits during the afternoon.

Visibility: Very good with excellent air clarity making distant hills and landmarks clear to see.
